About Me

I'm a computer enthusiast who started video editing at 13; that hobby grew into a passion for graphic design. I enjoy researching and designing creative layouts for websites as well as programming. I'm currently teaching myself Android development on the side to further explore my creative interests.

Skills

Web Design

Lead designer on the presentation tier for a large scale (30+ team members) ASP.NET school project aimed at providing *anythingforafriend.com* with a new registration system for their fundraising events.

Effective Listener

Adept at envisioning designs from a client's description and brainstorming with them for an exceptional product they can be proud of. Able to take criticism constructively and make valuable self-improvements.

Adaptable

My interests extend past my degree requirements and I love adding new tools to my arsenal. I have no problem picking up new skills to get the job done.

Technical

Java	C#	JQuery
HTML/CSS	SQL	Photoshop
ASP.NET	JavaScript	Adobe Premiere

Education

Weber State University, Ogden Campus
Major: Bachelor of Science - Software Engineering
Status: In Progress, Current Major GPA: 3.4
Estimated Graduation: Dec 2013

Additional Experience

U.S. Air Force Munitions Systems & Safety Specialist	2004 - 2009
---	-------------

Managed 3 to 5 man crews on a daily basis for 2 years. Ran a hazardous materials inventory. Assembled, tested and maintained missile guidance systems. Managed a technical order library which was regularly inspected to meet consistent quality.
